Dearest Carolina, and all the Gang at USP:

The Birthday Party was a great success, without a single discordant note, but we missed you all...very much, and we worried about Mario's accident --"little" Mario, that is, the one you brought to Tempe with you, the same little guy who sat in my lap as we motored about Brasília. We hope that by now he's all O.K. or nearly so.

Maggi, Deisy, Júlio, Sónia, Murray, and the others did an excellent job on the Brazilian representation. The "connection" symposium was a success in spite of heavy competition, and we had another get-together.

It appears that K. and S. is going to be back in print, published by the B. F. Skinner Foundation (!). It may contain a translation of the Brazilian Notes (by me !) after each chapter.

As soon as we get caught up with things, I'll try to give you a better account of what happened at Milwaukee.

Thank Maria Amelia, Tereza, Arno, for their notes, along with yours... Were there others.?. I'll find out later when I pull myself together.

The Banquet at Milwaukee was a high spot. Grandson Michael, daughter Anne, and son John, together with Burrhus Skinner and Julie Vargas, as well as a magician, made it a memorable event that I shall never find equalled !

So, once more, we wish you could have been there, but perhaps we'll see you soon in Chapel Hill ?

Our warmest love to all of you and thank you very, very much !

Fred and Frances

P.S.: Will you please extend our sincere appreciation of the note from the Diretora do Instituto, Zelia. It was much appreciated !

S.
